- I LOVE how the exhibits are laid out in the boxes

~~-can you add the Dept. chairs like it is on the Dog show? Department heads listed out in attachment below:~~

- Any exhibit that has a guide page number listed needs to be taken out; they change every year.

- I have to double click on the department in the tab list; is that supposed to be the case? I also can't get the baked goods and preserved foods tab to work. (Note from Dorothy: I have an email in to Mega Menu. Ask me about this when you get to it.)

Hey, question regarding new this year page -

"New This Year tab: Everything needs taken off of this and the attached added (lumberjack, cayden roberson, face painting, rabbit race, and Powerwheels Derby (I don't have an ad yet, this was just decided this week but a link to the rules is  Thomasmotorsportwv Kids Power Wheels Demolition Derby – Thomas Motorsport, LLC) Also can be found [here](#)."

These are banner/flyer images, with text on so this is the ADA issue again. How do you want me to handle this? Maybe you could ask them for a relevant photo or graphic for each of the things that need to be added and I will lay it out as 2 columns with a title, info one side, and the image on the other.

Can you pull images off/out of the attachments? And for ones you can't pull images out of a generic picture will work.

Alison Donnellan 55 mins

I can't really pull images from them, they'd be really low quality and most don't have suitable images as they're small or have text over them. The Rabbit Race banner can be used as is as the text is minimal. Cayden one can be cropped to remove bottom text and I can add that separate.

Edit: I've used AI to generate images where I couldn't get usable ones. So for the lumberjack and power wheel derby. Plus for the dog show raffle.

@Dorothy Stephenson can you send me this - Cloggers need updated (Ask me about this when you get to it, too.) and I'll get it updated asap
